

AMENDMENTS TO THE CLAIMS

This listing will replace all prior listings of claims in the application:

1-10. (CANCELED)

11. (CURRENTLY AMENDED) An interior finish building material comprising a gypsum-base building material composition for an interior finish, the composition containing from 1% by weight to 25% by weight of at least one naturally occurring zeolite, wherein the building material is a building board and wherein the building material has less than 3% diatomaceous earth.

12. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the composition contains at least 5% by weight of the zeolite.

13. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the composition contains at least 10% by weight of the zeolite.

14. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the composition contains from 5% by weight to 20% by weight of the zeolite.

15. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the composition contains from 10% by weight to 15% by weight of the zeolite.

16. (CANCELED)

17. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein said zeolite has a grain size of $\leq 200 \mu\text{m}$.

18. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein said zeolite has a grain size of $\leq 150 \mu\text{m}$

19. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein said zeolite has a d_{50} value of from $30 \mu\text{m}$ to $90 \mu\text{m}$.

20. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein said zeolite has a d_{50} value of from $40 \mu\text{m}$ to $70 \mu\text{m}$.

21. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein said zeolite has a mineral phase composition selected from the group consisting of clinoptilolite, heulandite, chabasite, phillipsite, mordenite and mixtures thereof.

22. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein said zeolite is employed in a native form.

23. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the gypsum content is at least 30% by weight.

24. (CANCELED)

25. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the gypsum content is at least 70% by weight.

26. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the zeolite has an oil number of at most 25 g/100 g of zeolite.

27. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the zeolite has an oil number of at most 10 g/100 g of zeolite.

28. (CANCELED)

29. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the zeolites are not admixed with antibacterial cations.

30. (PREVIOUSLY PRESENTED) The building material of claim 11 wherein the zeolites are mixed with stucco.

31. (PREVIOUSLY PRESENTED) A method of using the building material of claim 11 to reduce airborne pollutants in interiors.

32. (PREVIOUSLY PRESENTED) The method of claim 31 wherein said airborne pollutants are selected from the group consisting of formaldehyde, benzene, ammonia, tobacco smoke and mixtures thereof.

33. (PREVIOUSLY PRESENTED) The building material of claim 11 characterized by being sandwich-type plaster boards or gypsum boards coated with a glass fiber web and optionally being perforated.

34. (PREVIOUSLY PRESENTED) The building material of claim 11 characterized by being a plaster in which calcium sulfate semihydrate is used as a binder.
